CoinSlides, moneyboxes and high security devices for all your applications

ESD manufactures Vertical 4, Vertical 5, and Vertical 8 coin slides, Token Slides and Slides for the coinage of over 60 foreign countries. All slides are available with high security options including magnets, second gates. Slide extensions are available for all brands of machines.

ESD offers a full range of sizes in Money Boxes, both short (approximately 6") and long (approximately 8") lengths and two different heights. Boxes are available with flat face or high security face, polished chrome, powder blue or powder black, and four different lock styles. There is an ESD MoneyBox to fit every application.

ESD offers a wide variety of lock styles, tubular locks, XD locks, XE locks and Medeco locks, each offering a different level of security that can provide an acceptable solution for any application.

ESD accessories, cams, shafts, and slide extensions complete the most comprehensive line of mechanical payment products in the industry.

ESD HIGH SECURITY PRODUCTS

ESD Soap Machines Sell Your Products With Mechanical Reliability

ESD Seven Column Soap Machine

Has seven separate columns each operated by seven independent ESD coin slides. This design not only allows each column to be uniquely priced, but if one of the columns were to jam for any reason, the remaining columns will continue to operate without interruption. Each column holds approximately 25 boxes of product, and when a column is empty, no more money is accepted.

ESD Four Column Soap Machine

This machine has all of the features of the Seven Column machine, but has just four columns. This size is great for multi-housing laundry rooms and adding additional capacity to a large vended laundry store.

Soap Stops come with the ESD V-5 Coinslides equipped with magnet and gate security features

When it comes to security, the money compartment is in a separate locked area so the attendant can fill the machine with product without having access to the coins. The soap machine can be shipped from the factory with an optional steel guard that deters vandalism and a separate stand with a locked storage area is also available.

Steel Guard

Stand available for 4 and 7 column
