UNIPRESS

DC46 S Double Legger Press

The Unipress DC46 S is specifically designed to produce a top quality finish on all types of pants and fabrics. The unique design of the pressing head, buck and sandwich leaf eliminates side seam impressions and double creasing. The unit is fast and easy to operate, even trainees will quickly achieve high production and top quality.

- **Fast Smooth Operation**
- **Manual Sandwich Leaf**
- **Versatile** able to use as topper and utility press
- **Microprocessor Controls w/Self Diagnostics**

Ultra High Production and Top Quality Finish
